

## I. Departments with farm cases since July 2022

16 departments currently have at least one restriction area due to an outbreak in poultry farms: Côtes-d'Armor, Dordogne, Finistère, Indre, Loire-Atlantique, Loiret, Maine-et-Loire, Mayenne, Morbihan, Nord, Pas-de-Calais, Saône-et-Loire, Deux-Sèvres, Somme, Tarn, Vendée.

| 16 DEPARTEMENTS<br>in infected status | Outbreaks<br>number | Date of last<br>outbreak | Theoretical date of<br>recovery of free<br>status |
|---------------------------------------|---------------------|--------------------------|---|
| COTES-D'ARMOR (22)                    | 4                   | 16/11                    | 16/12   |
| DORDOGNE (24)                         | 4                   | 08/12                    | 08/01/23  |
| FINISTERE (29)                        | 2                   | 16/11                    | 16/12   |
| INDRE (36)                            | 1                   | 02/11                    | 02/12   |
| LOIRE-ATLANTIQUE (44)                 | 6                   | 07/12                    | 07/01/23  |
| LOIRET (45)                           | 3                   | 17/11                    | 17/12   |
| MAINE-ET-LOIRE (49)                   | 25                  | 08/12                    | 08/01/23  |
| MAYENNE (53)                          | 2                   | 17/11                    | 17/12   |
| MORBIHAN (56)                         | 8                   | 27/11                    | 27/12   |
| NORD (59)                             | 2                   | 20/11                    | 20/12   |
| PAS-DE-CALAIS (62)                    | 1                   | 15/11                    | 15/12   |
| SAONE-ET-LOIRE (71)                   | 1                   | 07/12                    | 07/01/23  |
| DEUX-SEVRES (79)                      | 25                  | 08/12                    | 08/01/23  |
| SOMME (80)                            | 1                   | 22/11                    | 22/12   |
| TARN (81)                             | 1                   | 18/11                    | 18/12   |
| VENDEE (85)                           | 54                  | 08/12                    | 08/01/23  |

Concerning the department of Indre (36), the DGAL is in the process of finalising the study of surveillance data in order to lift the restricted zones in the near future, which will allow this department to recover its free status in the absence of a new outbreak.

### • Dordogne (24) : 4 new outbreaks

| Municipality          | NRL PCR clade H5 HP | Species       | Estimated number |
|-----------------------|---------------------|---------------|------------------|
| ST GENIES             | 06/12/2022          | Duck          | 5 200            |
| ST GENIES             | 06/12/2022          | Duck          | 9 179            |
| ST GENIES             | 07/12/2022          | Geese         | 800              |
| ST CREPIN ET CARLUCET | 08/12/2022          | Gallus gallus | 5 000            |

### • Saône-et-Loire (71) : 1 new outbreak

| Municipality | NRL PCR clade H5 HP | Species | Estimated number |
|--------------|---------------------|---------|------------------|
| MONTRET      | 07/12/2022          | Geese   | 3 320            |

### • Loire-Atlantique (44) : 3 additional outbreaks

| Municipality | NRL PCR clade H5 HP | Species | Estimated number |
|--------------|---------------------|---------|------------------|
| PETIT MARS   | 05/12/2022          | Duck    | 9 000            |
| PETIT MARS   | 07/12/2022          | Duck    | 1 100            |
| LES TOUCHES  | 07/12/2022          | Duck    | 1 100            |

• **Maine-et-Loire (49) : 15 additional outbreaks**

| Municipality            | NRL PCR clade H5 HP | Species                      | Estimated number |
|-------------------------|---------------------|------------------------------|------------------|
| BEAUPREAU EN MAUGES     | 03/12/2022          | Duck                         | 4 400            |
| MONTREVAULT SUR EVRE    | 03/12/2022          | Duck                         | 13 030           |
| BEAUPREAU EN MAUGES     | 03/12/2022          | Duck                         | 883              |
| BEAUPREAU EN MAUGES     | 05/12/2022          | Duck                         | 6 300            |
| BEAUPREAU EN MAUGES     | 05/12/2022          | multi-species with palmipeds | 56 900           |
| SEVREMOINE              | 05/12/2022          | Duck                         | 24 000           |
| BEAUPREAU EN MAUGES     | 05/12/2022          | Duck                         | 4 400            |
| BEAUPREAU EN MAUGES     | 07/12/2022          | Duck                         | 4 100            |
| BEAUPREAU EN MAUGES     | 07/12/2022          | Duck                         | 4 100            |
| BEAUPREAU EN MAUGES     | 07/12/2022          | Duck                         | 9 600            |
| SEVREMOINE              | 07/12/2022          | Duck                         | 17 000           |
| SEVREMOINE              | 07/12/2022          | Duck                         | 13 000           |
| SEVREMOINE              | 08/12/2022          | Gallus gallus                | 27 000           |
| BEAUPREAU EN MAUGES     | 08/12/2022          | Duck                         | 3 640            |
| SAINT MACAIRE EN MAUGES | 08/12/2022          | Gallus gallus                | 96 000           |

• **Deux-Sèvres (79) : 14 additional outbreaks**

| Municipality            | NRL PCR clade H5 HP | Species                      | Estimated number |
|-------------------------|---------------------|------------------------------|------------------|
| CIRIERES                | 02/12/2022          | Duck                         | 19 500           |
| MAULEON                 | 02/12/2022          | Duck                         | 1 440            |
| ARGENTONNAY             | 03/12/2022          | Duck                         | 29 600           |
| ARGENTONNAY             | 03/12/2022          | Duck                         | 9 000            |

| LE GIROUARD             | 08/12/2022          | Duck          | 2 300            |

### Sanitary measures, zoning

As for all outbreaks, as soon as the suspicion was raised, sanitary management measures were triggered within the EU regulatory implemented zoning (3 km Protection Zone "ZP" and 10 km Surveillance Zone "ZS" around the farm): culling of poultry on affected farms (either as a preventive measure or at the latest the day after NRL confirmation), reinforcement of biosecurity measures, census of farms and ban on poultry movements.

### Raising the risk level

The level of risk with regard to HPAI has been raised from "moderate" to "high" (*ministerial decree of 8 November 2022*), which makes the compulsory confinement of poultry by their keepers since 11 November 2022 throughout metropolitan France.

## II. Free status recovery

Departments from 2021-2022 episode that have recovered their free status:

| DEPARTEMENT               | Date of recovery of free status |
|---------------------------|---------------------------------|
| AIN (01)                  | 21/11/2022                      |
| AVEYRON (12)              | 20/06/2022                      |
| CANTAL (15)               | 08/06/2022                      |
| CHARENTE (16)             | 20/06/2022                      |
| CORREZE (19)              | 12/07/2022                      |
| GERS (32)                 | 26/05/2022                      |
